

OptiSpec® DE2600-S1

Fiber Optic Microscope

Domaille Engineering is proud to announce our new OptiSpec® DE2600-S1 microscope. The DE2600-S1 is designed to provide a quick view of the entire MT end face with special blue lighting for enhanced end face particle detection. Our DE2600-S1 accommodates all of the standard PC and APC connectors including the entire MT connector Series.

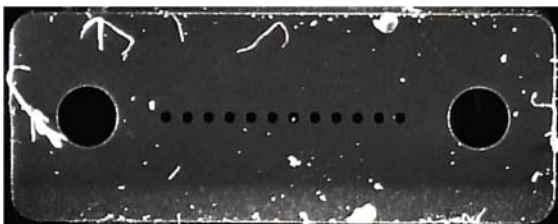

DE2600-S1

Monitor and adapters sold separately

Normal DE2600 co-axial image

Enhanced DE2600-S1 blue light

Benefits at a Glance:
