

## Fiber Optic Microscopes

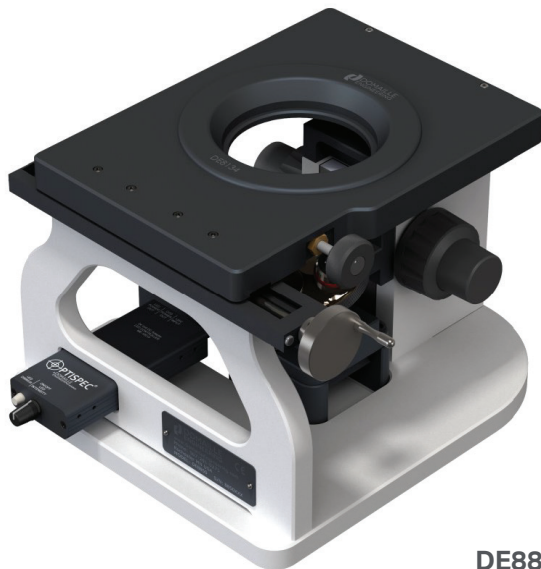

# OPTISPEC® DE8850 & DE8880

The OptiSpec® DE8850 (Standard) & DE8880 (High Volume) Microscopes provide multiple time saving operations/capabilities, allowing you to inspect connectors while loaded in a fixture, without damaging the fibers. Domaille's 8800 series scopes allow the user to reconfigure from standard fixture inspection to high volume fixture inspection.

Monitor  
and adapters  
sold separately

DE8850

DE8850

**Domaille specializes in engineering solutions
